Interagency Source Control Procedures

1. On 24 July 1952 the IAC approved (IAC-M-77) the recommendations of an IAC ad hoc subcommittee established to determine methods for negating the activities of Paper Mills and Fabricators and for devising interagency source control procedures (IAC-D-54, 2 July 1952). However, terms of reference for the establishment and operation of an interagency source control mechanism subsequently proposed (IAC-D-54/1, 26 February 1953) did not receive the approval of the IAC agencies.

2. CIA believes that it would now be desirable for the IAC agencies to review this matter generally and attempt to devise more satisfactory procedures for dealing with this problem. CIA therefore recommends that the IAC refer the attached draft (Attachment A) to the Interagency Clandestine Collection Priorities Committee (IPC), or an appropriate working group, for review and preparation of recommendations for submission to the IAC for final approval.

3. This matter will be placed on the agenda of an early IAC meeting for appropriate action.
